

2023

DODGE DURANGO

BROTHERHOOD OF MUSCLE

We've always been devoted to distancing ourselves: from the pack, from the competition, from the mundane and – most importantly – from convention. Every Dodge in our 2023 lineup is designed to deliver something decidedly unique: fierce attitude, formidable horsepower and intense performance.

CHARGER SRT HELLCAT //

FAMILY OF LEGENDS

DURANGO STANDS ALONE

In the world of mid-size three-row SUVs, Durango stands out with muscle-car performance. This powerhouse is built for those who are passionate about horsepower, torque and muscle. They're also the ones who want to pull their boat, haul the quads and take the family skiing. With three rows of seats, room for up to seven people or a maximum of 2,410L of cargo space at your disposal, Durango has room for who and what you need. Count on Dodge Durango to handle all of the demands life throws at you.

The interior showcases an integrated center stack, 7-inch performance cluster and gauges, Uconnect® 5 infotainment radio with a 10.1-inch touchscreen and wireless charging pad (on select models.) The wrapped instrument panel stands out with accent stitching. Other available details include Nappa leather trim seating with an embossed Dodge Rhombus logo, heated and ventilated front seats, and Type-A and the coveted Type-C USB ports.

DURANGO SRT® 392 // STRONG BUT NEVER SILENT

From the throaty, aggressive whirl from the HEMI® engine to the rumble from the performance exhaust, Durango SRT® 392 delivers an aggressive dose of performance, horsepower and capability. The 392 HEMI® V8 engine unleashes 475 horses, 470 lb-ft of torque and delivers a 0 - 100 km/h drag strip time of 4.6 seconds. Consider the certified 12.9-second 400-meters time by the National Hot Rod Association (NHRA), and Durango SRT® holds even more bragging rights – and that's without even going into detail about the 8-speed Performance-tuned transmission, Sport-tuned All-Wheel Drive, high-flow dual exhaust with 102-mm (4-in) outlets, massive 295-mm tires on 20 by 10-inch wheels and huge Brembo® brakes.

R/T SUPERTRACK //

Durango's brawn isn't as immediately noticeable as the cockpit and huge Uconnect screen, but put your foot on the pedal and you know it's go time. The Durango R/T Supertrack offers the power of up to 3,500 kg of available towing for drivers who want to bring all their toys with them. Package highlights include 6-piston Brembo® brakes, Bilstein® adaptive damping suspension, an electronic limited-slip rear axle, a performance exhaust system, multiple drive modes and more! The Supertrack gives you a max speed of 233 km/h, 24 km/h more than an R/T.

DODGE HAS ALWAYS BEEN, AND ALWAYS WILL BE,
A BRAND FOR THOSE WHO CRAVE **POWER**, DEMAND TECHNOLOGY
AND **WANT TO STAND OUT.**

530 KW @ 6.100 RPM / 868 NM @ 4300 RPM

Combined Fuel Consumption and CO₂ Emission with 5,7L Hemi V8 engine available for Durango R/T Premium, R/T Supertrack, according to WLTP Standard: 15,9L/100km; 363g/km.

Combined Fuel Consumption and CO₂ Emission with 6,4L Hemi V8 engine available for Durango SRT 392: 14,4L/100km; 341g/km.

Combined Fuel Consumption and CO₂ Emission with 6,2L Hemi V8 engine available for Durango SRT Hellcat: 19,1L/100km; 455g/km.

TOWING PRODIGY

UP TO **3,500 KG**

BIG NUMBERS, BIG RESULTS /// R/T Supertrack, Durango SRT® 392, and SRT® Hellcat deliver a mammoth towing capacity of up to 3,500 kg. The R/T boasts up to 3,250 kg of towing capability.

//// Durango R/T Supertrack shown in White Knuckle with Hemi Orange Package. Properly secure all cargo. Always tow within the vehicle's capacity.

ALL-WHEEL DRIVE (AWD) /// Durango was built to conquer the conditions. This available AWD system leverages the SUV's 52/48 weight distribution to enhance the vehicle's traction and handling. The result is a smooth driving experience over a wide range of road conditions. Durango offers two AWD systems – a Performance-tuned system for the 6.4L and 6.2L Supercharged HEMI® V8 engine and a two-speed, active on-demand system for the 5.7L HEMI V8.

Properly secure all cargo.

RULER
OF ANY SEASON

////// Durango R/T Premium shown in Octane Red.

MUSCLE-INSPIRED, DRIVER-FOCUSED /// We pushed the interior just as hard as the performance. The cockpit is asymmetric, literally leaning in toward the driver for a race-inspired feel. Drive easier with the 7-inch Thin Film Transistor (TFT) cluster design and the Uconnect® 5 system boasts a larger floating 10.1-inch touchscreen. An integrated control switch bank adds quick access to available heated seats and heated steering wheel controls.

////// Durango SRT 392® shown with available Laguna leather trim in Demonic Red.

10.1-INCH UCONNECT® TOUCHSCREEN // Standard on all Durango trims.

VERSATILE SEATING

50+ SEATING CONFIGURATIONS /// With three rows of seats, room for up to seven people and a maximum of 2,410 L of cargo space (with all seats folded) at your disposal, Durango has room for who and what you need. Striking the right balance, the standard 60/40 split-folding second-row reclining bench seat features

a padded center armrest with cup holders. For six-passenger seating, the available Fold-and-Tumble second-row Captain's Chairs (shown above) include soft-touch armrests and a floor-mounted mini console with cup holders. For seating up to seven, a 50/50 split-folding third-row seat is available.

MULTIFUNCTION STEERING WHEEL //
shown on Durango R/T Premium

R/T PREMIUM /// The monochromatic exterior with a race oriented design – performance hood, performance front fascia and black accents surrounding the LED headlamps, 20-inch Black Noise Aluminum wheels (packaged with the AEC Standard Blacktop Package) wrapped in all-season tires is enough to redline your senses.

The heart-pounding performance that comes from the 5.7-litre HEMI® V8 engine and unique Sport-tuned suspension takes your heart rate to the next level.

Inside, the details are equally as impressive, with a standard Uconnect® 5 multimedia center featuring a 10.1-inch touchscreen, premium EU navigation, Apple CarPlay and Android Auto, and leather-trimmed bucket seats with red accent stitching.

The newly introduced 2023 R/T Premium Package packed with additional standard content including the 19 Speaker Harman Kardon Sound System, Power Sunroof, Forged Carbon Fiber Interior Accents, Premium Suede Headliner, Cargo Compartment Cover, Lane Departure Warning Plus and Advanced Brake Assist.

//// Durango R/T Premium shown in Octane Red.

Combined Fuel Consumption and CO₂ Emission with 5.7L Hemi® V8 engine available for Durango R/T Premium, R/T Supertrack, according to WLTP Standard: 15,9L/100km; 363g/km.

R/T SUPERTRACK /// Based on the R/T, the title for the big rig of SUVs goes to the available Durango R/T Supertrack built for moving the tough. Package highlights include include 6-piston Brembo® brakes, Bilstein® Adaptive Damping Suspension, an Electronic Limited-slip Rear Axle, a performance exhaust system, multiple drive modes including Sport/Track/Tow/Snow and more!

//// Durango R/T Supertrack shown in DB Black.

SRT® 392 /// For those who want intensity and a little insanity, Durango SRT 392 continues to supply a megadose of performance, horsepower and capability. The 392 HEMI® V8 engine unleashes 475 horses, 470 lb-ft of torque and delivers a 0 - 100 km/h drag strip time of 4.6 seconds. Consider the certified 12.9-second 400-meter sprint time by the National Hot Rod Association (NHRA), and Durango SRT holds even more bragging rights – and that’s without even going into detail about the 8-speed Performance-tuned transmission, Sport-tuned All-Wheel Drive (AWD), high-flow dual exhaust with 4-inch outlets, massive 295 tires on 20 by 10-inch wheels and huge Brembo® brakes.

SRT® HELLCAT /// If not even this is enough insanity, opt to upgrade to the 6.2L Supercharged Hemi Hellcat engine with 710 HP and 868 NM of torque to unlock the maximum power and temper of the world’s only true muscle SUV.

////// Durango SRT® Hellcat shown in Triple Nickel.

DURANGO WHEELS //
shown with SRT® Red Brake Calipers.

SAFETY & SECURITY FEATURES

PARKSENSE® REAR PARK ASSIST⁵ //// When your vehicle is in reverse, this available system can sense nearby objects moving at low speeds; if an imminent collision is detected, the system will provide a momentary, autonomous brake pulse. In certain circumstances, this system can help bring your vehicle to a stop.

RAIN BRAKE SUPPORT //// When your windshield wipers have been activated, this standard system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security.

BLIND SPOT MONITORING (BSM)⁶ WITH REAR CROSS-PATH DETECTION⁷ //// With this available system, radar continually monitors rear vehicle blind zones and will visually and audibly alert you when a vehicle is sensed in any of the zones. When your vehicle is in Reverse, rear sensors warn through a chime if cross-traffic approaches the vehicle.

ADAPTIVE CRUISE CONTROL (ACC) WITH STOP⁸ //// This available system helps maintain a driver-selected distance from the vehicle ahead; under certain traffic conditions, the system can bring the vehicle to a full stop without driver intervention.

FORWARD COLLISION WARNING (FCW) WITH ACTIVE BRAKING⁹ //// With this available system, radar and camera technology combine to alert you when the system senses a potential frontal impact. If you're not able to respond quickly enough, the system will automatically engage the brakes, with the ability to bring the vehicle to a complete stop.

PARKVIEW® REAR BACK-UP CAMERA⁷ //// This standard system displays an accurate visual reference of what is behind your vehicle when it's in Reverse.

ELECTRONIC STABILITY CONTROL (ESC)¹⁰ //// This standard system is designed to assist you in maintaining control of your vehicle during extreme steering maneuvers. ESC¹⁰ senses when the vehicle is starting to spin (oversteer) or plow (understeer) and attempts to correct the vehicle's course by automatically controlling the throttle and applying the brakes at individual wheels.

READY ALERT BRAKING (RAB) //// This standard system anticipates situations when you may initiate an emergency brake stop and uses the ESC¹⁰ pump to precharge the brake system in order to decrease the time required for full brake application.

ALL-WHEEL DRIVE (AWD) //// An available system that automatically detects wheel-slip and sends additional power to the wheel(s) with the most traction.

ANTILOCK BRAKE SYSTEM (ABS) //// Standard four-wheel antilock disc brakes sense and prevent wheel lockup, offering improved steering control under extreme braking and/or slippery conditions.

LANESENSE® LANE DEPARTURE WARNING (LDW) WITH LANE KEEP ASSIST¹¹ //// This available system measures your position within lane boundaries. If it detects an unintentional lane drift, it will alert you and correct the vehicle back into the lane.

IN TOUCH WHEREVER YOU GO

The Uconnect® system is your customizable, connected vehicle platform dedicated to safe and seamless communication, navigation and entertainment – all from one easy-to-use touchscreen.

Uconnect®

10.1-INCH TOUCHSCREEN¹²

Available Uconnect[®] 5 brings a wide range of interactive features to your vehicle and beyond through a highly intuitive communication experience on R/T Premium and above.

UCONNECT PHONE

Stay connected safely. Pairs a Bluetooth[®] phone to send and receive hands-free¹³ calls. Includes:

- **DO NOT DISTURB** to route incoming calls to voice mail and suppress text messages.¹⁴
- **VOICE RECOGNITION** to make hands-free¹³ calls, listen and respond to text messages,¹⁴ record voice memos, and select media stations and navigation destinations.

CUSTOMIZATION OPTIONS

We're taking personalization and customization to the next level. Uconnect 5[®] features several fully customizable interfaces with the ability to store up to five user profiles. Each user can set their own music and vehicle operation preferences such as temperature, seating position and mirror placement. Switching between users is simple and can be handled by a single touch.

Drivers can also arrange widgets that provide quick access to their favorite commonly used function and information. Depending on screen size, up to four widgets can be placed on each pane. Drivers can also set up to five different screens they can swipe between. Even the status bar can be customized.

DUAL-PHONE CONNECTIVITY

Perfect for drivers who carry multiple phones or for a passenger, Uconnect[®] 5 can connect two Bluetooth phones simultaneously. The system can manage input from two different devices with the ability to name one a priority over the other for various functions, including navigation, phone, music selection and text messages.¹⁴

Display your favorite iPhone® apps right on your Uconnect® touchscreen. Access your iTunes® library, call anyone in your contacts list or just ask Siri®¹⁷ to help you out while you drive. Get directions, make calls and send messages, and connect to Apple Music, all without pausing your drive. With wireless Apple CarPlay^{®16} you alleviate the need for a cable, allowing your iPhone® to connect to your in-car system wirelessly. Standard.

Bring the best of Google with you in your Uconnect® system. Talk to Google on Android Auto™ and get things done with your voice so you can keep your focus on driving. Easily send messages, get directions, control media and more. Just say, “Hey Google” or long-press the voice control button on your steering wheel. Standard.

AEC SERVICES

//// IMPORT

As an official importer for Dodge, we at AEC are the best source for your Dodge vehicle needs. Our vehicles are ordered directly from the manufacturer, configured to your specifications, and delivered directly to the European Union. We guarantee that our vehicles meet all country-specific specifications according to European law. When you are looking for a Dodge vehicle, AEC and the AEC dealer network is the place to go.

//// HOMOLOGATION

AEC vehicles are prepared to manufacturer quality to meet all standards of the EU. We can assist our customers with the technical conversion, documentation and certification of their vehicles throughout the entire European Union. Customers can rest assured that our extensive experience and that of our AEC dealers ensure that your vehicle meets the registration requirements of your country.

//// FINANCING

As a European customer, you can rely on an extensive range of financial services via your AEC dealer. Our cooperation partner, Santander Consumer Bank, provides all financial services you will need. The Santander Consumer Bank is one of the biggest industry service providers for financial services. It has many years of experience in the automotive sector, as well as an excellent reputation.

//// WARRANTY

AEC offers extensive, industry leading warranty coverage for all Dodge vehicles. AEC Premium is an insurance product based on the conditions in the factory warranty that provides full coverage for defects in all mechanical and electronic vehicle components for 24, 36, 48 or 60 months or up to 200.000km mileage. With the AEC Premium Plus Extended Warranty, you have the possibility to extend your AEC Premium Plus Warranty with a further 12, 24 or 36 Months (maximum total validity of 60 Months).

AEC PREMIUM PLUS WARRANTY

TERMS AND CONDITIONS

§ 1 SUBJECT MATTER

1. The seller/guarantor Auto Export Corporation (hereinafter referred to as "AEC"), 24 Commerce Place, St. Catharines, Ontario, Canada, L2S 0B3 gives the buyer/guarantee holder (dealer), under the other conditions set forth in § 4, a guarantee of the functionality of the assemblies specified in § 2 (1) for the term set in the guarantee agreement. The dealer assigns their rights under these guarantee conditions to the vehicle buyer named in the guarantee agreement. The vehicle buyer accepts this assignment. Compensation will be provided according to the guarantee if one of the guaranteed parts loses its functionality within the agreed guarantee term, and not as a result of a fault in non-guaranteed parts, so that a repair becomes necessary. The guarantee applies within the country, to temporary trips such as holiday and business trips, and also throughout Europe. A temporary trip does not include when the vehicle is predominantly abroad for a period of more than six weeks. The guarantee does not justify any claims for revoking the purchase contract or reduction (reduction of the purchase price). If the repair is unsuccessful twice, the buyer/guarantee holder may request that another specialist garage be commissioned to carry out the repair. This guarantee does not exclude any eventual claims of the buyer under the statutory guarantee. Another condition for guarantee claims is compliance with the requirements of § 4.
2. CAR-GARANTIE GMBH (hereinafter referred to as "CG"), Gündlinger Strasse 12, D-79111 Freiburg, is authorized by the seller/guarantor (AEC) to process the entire guarantee with the buyer/guarantee holder on its behalf and for its account. Notices of amendments (such as a change of holder) and claims subject to guarantee shall be reported to CG.

§ 2 SCOPE OF THE GUARANTEE

The guarantee covers all factory-installed mechanical, electrical, electronic, hydraulic and pneumatic parts of the vehicle described in the guarantee agreement, unless they are excluded by the following paragraphs 2 and 3.

Material and labor costs will not be compensated for:

- Additional equipment not available from the factory
- Refilling and refilling as well as retrofitting of air conditioning systems
- Impurities in the fuel system
- Elimination of noise
- Attachments, superstructures and conversions (covered, however, if installed by AEC)
- Corrosion, oxidation and paint damage;
- Clutch and brake linings (however the multi-disc clutch is covered in automatic and Transfer cases), brake disks and drums, shock absorbers, light bulbs, spark plugs
- Button cells and starter batteries
- Wiper Blades and all drive belts (but the toothed / timing belts of the Engine control)

- Parts that are regularly replaced during maintenance / servicing work
- Tires and wheel balancing
- Spark plugs, hoses and required, specified small items will be reimbursed, provided that they have to be replaced in connection with the repair of compensable damage.

§ 3 EXCLUSIONS

No guarantee applies without consideration of contributing causes of damage:

- a) by accident, such as an event directly resulting from a sudden external mechanical force;
- b) through improper, mischievous or malicious actions, misappropriation, in particular theft, unauthorized use, robbery and embezzlement, damage that is directly caused by animals, storm, hail, frost, corrosion, lightning strike, earthquake or water ingress, as well as by scorching, fire or explosion;
- c) by war events of any kind, civil war, civil unrest, strike, lockout, terrorism, vandalism, seizure or other sovereign interventions, or by nuclear energy
- d) arising from participation in driving events with racing character or from associated practice rides;
- e) by altering the original design of the motor vehicle (such as tuning, VMAX suspension, gas conversion, etc.) or by installing third-party or accessory parts that are not approved by the manufacturer;
- f) by the use of a part that is recognizably in need of repair, unless the damage can be shown to be unrelated to the need for repair, or when at the time of the damage the part had been at least provisionally repaired by a trained professional;
- g) when the buyer/guarantee holder has at least temporarily used the motor vehicle for commercial passenger transport or if the motor vehicle has been leased commercially to a changing group of persons;
- h) caused by the use of unsuitable operating materials or by a lack of operational materials (lubricants, oils, cooling water, etc.);
- i) for which a third party is required to intervene, which is rectified as an expression of the manufacturer's goodwill, or which are caused by a manufacturing or material defect that occurs in large numbers of the vehicle type (serial defect) and for which in principle manufacturer's scope comes into consideration according to type and frequency.

§ 4 CONDITION FOR GUARANTEE CLAIMS

The condition for any guarantee claims is that the buyer/guarantee holder,

1. BEFORE THE CLAIM EVENT:

- a) has carried out and documented the maintenance, inspection and care on the vehicle that is prescribed or recommended by the manufacturer at the dealer or at an authorized workshop recognised by the manufacturer, or carried out and documented in accordance with the manufacturer's specifications. Exceeding the manufacturer's kilometre specification of up to 3,000 km or the manufacturer's timeframe of up to three months is harmless, whereas the exceeding of one of the

specified specifications already precludes a guarantee claim. A guarantee claim is only contrary to one of the aforementioned requirements if it is responsible for the occurrence of the damage. Concurrent causality is sufficient. Concurrent causality is suspected. The buyer/guarantee holder is at liberty to prove the lack of causation.

fails to indicate interventions or other influences on the odometer, immediately indicates a defect or the need for immediate replacement of the odometer indicating the mileage.

b) follows the vehicle operating instructions of the manufacturer.

2. after the claim event:

- a) immediately notifies the seller/guarantor (AEC) or the CG at their relevant registered offices the relevant damage under guarantee after the occurrence of the same but before the repair, by phone or by email;
- b) has the repair done by the dealer. After consultation with CG, the repair can also be carried out at another qualified vehicle garage;
- c) demonstrates CG any maintenance or care performed since the beginning of the guarantee with invoices from the dealer or the executing workshop by submitting copies of the documents;
- d) allows an authorized agent of the seller/guarantor (AEC) and/or of CG to carry out an inspection of the damaged parts at any time and, upon request, provides the information necessary to establish the damage;
- e) reduces the damage as much as possible while following the instructions of CG; if circumstances permit, he shall obtain such instructions before the repair begins.

§ 5 REIMBURSEMENT OF COSTS

1. Guarantee-related labor costs will be fully reimbursed to the buyer/guarantee holder according to the manufacturer's standard working hours. Guarantee-related material costs are paid at most according to the non-binding price recommendations of the manufacturer.
2. If the repair costs exceed the value of an exchange unit that is customarily installed in the case of such damage, the obligation to pay compensation shall be limited to the cost of this replacement unit, including removal and installation costs, applying paragraph 1.
3. The maximum amount of compensation subject to guarantee is limited to the time value of the damaged vehicle at the time the guarantee claim occurs per claim.

4. No compensation is paid for:

- a) the costs for testing, measuring and adjustments (according to the manufacturer's working time standard), insofar as they are not incurred in connection with damage requiring compensation and maintenance, inspection, cleaning or care work prescribed or recommended by the manufacturer;
- b) the replacement of direct or indirect consequential damages, such as shipping and disposal costs, parking fees and compensation for lost use; paragraph 5 shall remain unaffected hereby.

Expenditures for mobility

If agreed separately in the guarantee agreement, the expenditures for achieving mobility (i.e. towing, rail travel, rental car, accommodation and telephone costs) will be reimbursed.

§ 6 CLAIMS SETTLEMENT

1. CG assumes responsibility on behalf of the seller/guarantor (AEC) for processing all claims with the buyer/guarantee holder. A repair invoice must be submitted to CG containing a clear and detailed description of the work performed, the spare parts prices and the labor costs with standard working hours.
2. In every case, the guarantee shall be notified to CG by phone prior to the repair so that CG can authorize the repair. A telephone service is available for this:
Monday to Friday from 8:00 am to 5:00 pm at
+49 761 4548-966. warranty-en@aecurope.com

§ 7 ASSIGNMENT OF CLAIMS AND STATUTE OF LIMITATIONS

1. In the event the vehicle with the guarantee is sold, the guarantee claims pass to the new holder with the ownership of the vehicle. Any change in ownership must be reported to AEC or CG in writing no later than 14 days after the change in the holder.
2. Claims under the guarantee lapse six months after the claim event, at the latest six months after the end of the guarantee term.
